

Constitution of Overdex

Foundations

The Pokédex is the foundation.

Facts before conclusions.

Wait before you do.

Observe once.

Trust observed data.

Respect existing architecture.

The smallest successful change is the correct change.

Development

One feature.

One commit.

One test.

Interface

Every pixel earns its place.

The D-pad owns focus.

A confirms.

B returns.

SELECT performs contextual actions.

START launches DroidBall.

Litmus Test

Would this exist on a dedicated Overdex handheld?
